

ONLY AT DAVENS! We are proud to be carrying the Coyote line of high-fire glazes. Coyote glazes fire to witness cone five to six. Coyote glazes are extremely user friendly & come in Gloss, Satin, Matt, Mottled, Crawling, Celadon and Shino varieties.

Please note: We carry all pints at Davens. We have a limited assortment of Dry 10 & 25lb bags in stock. We can order whatever you like, but please allow 1-2 weeks for it to come in. Call first to check availability.

Frank's Colored Celadons

COYOTE's new translucent glazes are great over brushwork, carvings and texture and colored clays. While celadons are usually thought of as ranging from pale to intense green, traditional celadons could also be clear, yellow or blue. We have expanded the palette to include a rich variety of colors. These glazes are user friendly, pooling without being overly runny. Particularly nice over porcelain or smooth white clay. (These tiles are made from Laguna's cone 5 B-Mix). Food safe.

Shino Glazes

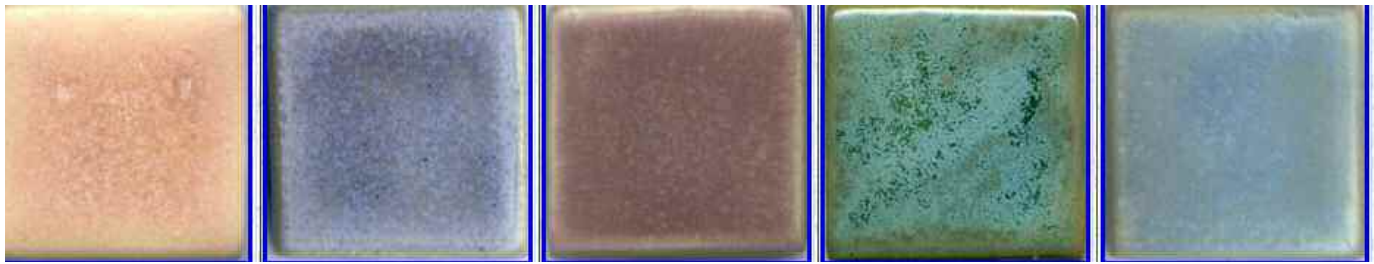

COYOTE's Shino glazes are gorgeous (exquisite, dazzling!) and most unusual, a rare combination of beauty and reliability. The color is sensitive to thickness, breaking brown where thinner and giving interest to the surface. Very user friendly, the Shinos are easy to apply, are not runny and are at their best over texture; they're also great over other glazes. Food safe (except Green Shino)

Archie's Glazes

COYOTE's most popular series, you can achieve stunning and amazingly varied results with a single glaze, or truly spectacular effects by layering over other glazes. This series is more demanding, the application is critical; too thin and they can be ugly, too thick and they will be runny. Food safe. These glazes don't fit all clay bodies, be sure to read the clay and glaze fit page at <http://www.coyoteclay.com/glazefit.htm>
