

# KILNS

March 4, 2024

**SKUTT KILN MASTER SERIES** - KilnMaster Precision firing, Convenience, and Programming flexibility! The KilnMaster line of kilns gives you two ways to achieve precise firings. Cone Fire Mode uses sophisticated software to run preset programs based on the Speed and Cone Value you enter including the perfect ending temperature. Ramp/Hold Mode lets you design and store your own firing programs of up to eight segments. You are in total control of heating and cooling rates. Both programming modes offer the ability to Pre-Heat, Hold at peak temperature, Delay firing, set temperature Alarms, Review programs, and View program status. Skutt KM Kilns come with an operators manual and video. The 1627, 1231, 1227, 1218, 1027, and 1018 kiln models come with the lid lifter - prices below include this addition.

KilnMaster Model	Voltage/Phase	Chamber Size	Cubic FT	Cone Temp	Retail \$	Davens \$

**NEW – KILN MASTER TOUCHSCREEN OPTION (KMT) - All Production**

Series, KilnMaster and GlassMaster models that use a full size touchpad can be ordered with the new KilnMaster or GlassMaster **Touchscreen** Controller. The only difference between a KilnMaster Touchscreen Controller and a GlassMaster Touchscreen Controller is the GMT Controller ships with the Ceramic programs turned off to protect you from over firing your kiln. For more information on the features and function of this innovative new controller and its associated App check out Skutt's [Featured Products](#) page.

The Envirovent 2 is the first commercially available downdraft ventilation system on the market. It removes fumes, improves firing consistency, and fits all Skutt kilns and most other brands. Retail: \$693 Daven price: \$625 With purchase of a Skutt kiln: \$589

**Please contact Davens Ceramic Center for kiln parts and wheel pricing.**

**SKUTT KILN SITTER SERIES** - This is the original Kiln Controller. Developed in the 50s, this controller utilizes pyrometric cones to sense when the kiln has reached the proper heatwork and shuts off mechanically as opposed to digitally. Skutt highly encourages people to upgrade to the new digital controllers due to their added features.

**Skutt has temporarily stopped production for these kilns.**

**Davens Ceramic Center 5076 Peachtree Road Atlanta, GA 30341 – 770-451-2105**

**Easy to buy . . . Easy to use . . . Easy to keep** - L&L offers a three year warranty, and excellent customer support! Easy-Fire ceramic kilns are

**Clean. Precise. Dependable.**

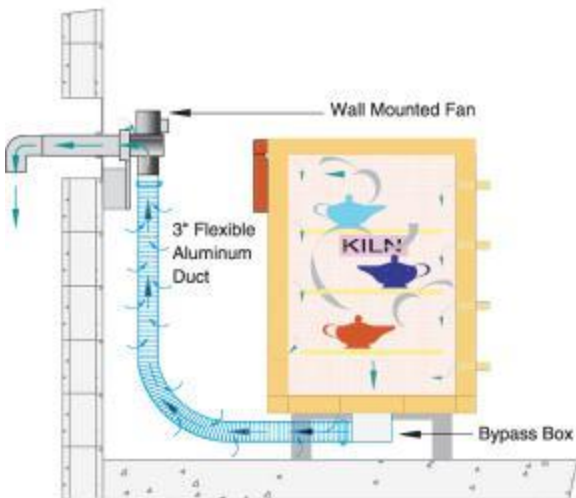

**Easy-Fire Kilns**

the industry standard professional-grade electric kiln and L&L's most popular line of kilns. They include durability features like element holders, protected thermocouples, super-strong stands and solid peephole plugs. For unparalleled performance and excellent temperature uniformity they include automatic zone control. They are designed for easy maintenance with their easy pull-down panel, easy-to-change elements and color-coded wiring. Visit [www.hotkilns.com](http://www.hotkilns.com) for photos and information. See the following chart for cubic footage and cone information. Please call for pricing. **L&L Kilns - By Special Order Only**

**L&L kilns are made with special hard ceramic element holders that protect and cradle your elements – giving them longer life and more protection from chips that occur from loading and unloading over time.**

Easy Fire Model	Voltage/Phase	Chamber Size	Cubic FT	Cone Temp
E18S	240 /208 Volt	17.5" x 17.5" x 18"	2.6	10
